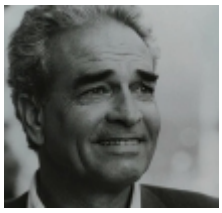
teak table 160 - 486_160_O

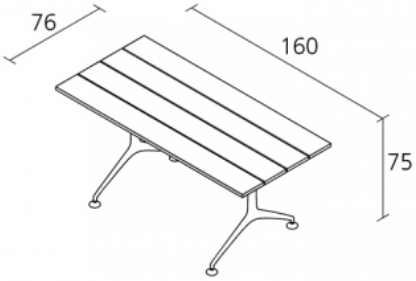
Fixed table for outdoor use with structure made of stove enamelled die-cast aluminium elements. Top in teak flats made up of strips joined together (Finger Joint).

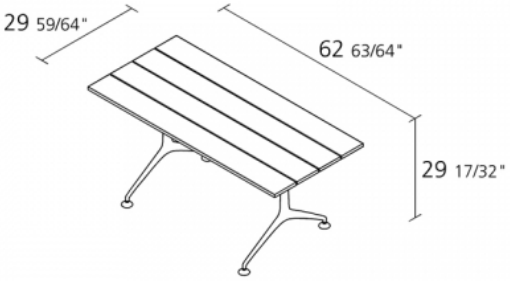


design
Alberto Meda

The teak collection returns to the essence of the setes bench with its chairs, tables and chaise-longue models. Manufactured with teak wood slats on a die-cast aluminium frame, the products of the teak collection are resistant over time and pleasant to the touch. Suitable for outdoor areas, they add solidity and attention to detail to the outdoor collections.
The chairs practical, stackable and with a lightweight aluminium frame, with teak slats cut out in the lumbar support seat area, thus adding elasticity, ergonomics and comfort.
The tables with structure in aluminium and top with the characteristic teak slats are available in varying sizes. The dimension of the 200 top includes both the fixed and the functional folding structures.

Dimension





Year warranty: 2 years
Production time: 4 weeks
