

PAIR™

UNIQUE DESIGN PAIRED
WITH UNLIMITED POSSIBILITIES

REPUBLIC OF **Fritz Hansen**®

PRODUCT DESCRIPTION

With PAIR™ we present a unique design paired with unlimited possibilities. PAIR is a stacking chair and comes in a mix of veneer and plastic that differentiates it from the existing stackable chairs in our collection. PAIR is the definition of a light chair; in terms of space, weight and visual noise. Benjamin Hubert has strived to rethink the term 'classic' when creating PAIR, by mixing materials and matching colours.

Whilst adding Hubert's playful expression and industrial background, PAIR is the result of challenging the classics - a process we find fit for our existing collection of timeless design. PAIR represents this timelessness through superior quality made for extensive use. The quality is supported by the chair's primary feature; it's almost endless possibilities for customisation. With PAIR you can build up to 80 different varieties of the same chair by blending bases, materials, cushions and much more.

DESIGN

Benjamin Hubert, 2016

BENJAMIN HUBERT 1984 -

Born in the UK in 1984, Benjamin Hubert studied at Loughborough University and graduated in 2006 in Industrial Design and Technology; he founded his studio in 2007 in London. The studio specializes in materials driven, process led, industrial design across furniture and lighting sectors working with international manufacturers in Europe.

UNLIMITED POSSIBILITIES

The PAIR chair is a tale of materials, textures, light and colour. You can customize the different elements and mix & match the different colours and materials. This opens up for endless combinations. . The chair is available in 3 different materials: translucent coloured plastic, oak and chrome; in 4 backrest colours; white, red, black and green and in 3 base colours; chrome, black and green. Furthermore, it can be accessorised with cushions in 4 different fabrics.

In total, without the cushion, you can build 80 different chairs.
